

DENTAL ASSISTING

Dental Assistants are trained individuals who can sit opposite the dentist and work on a live patient assisting the dentist. During the course of this program you will learn the basic principles of dental instruments, dental materials, and office procedures and what is expected from the professional dental assistant. We strive to provide the technical instruction and skill development to enable the students to become successful dental assistants. Upon completion of the program the student will receive a Dental Assistant certificate, as well as, a certificate in Radiology. Our unique learning experience allows our students to also obtain interpersonal skills essentials for career success and advancement.
