

Phlebotomy

Phlebotomists are trained individuals that are able to draw blood from a live person. During the course of this program you will learn the basic principles of venipuncture and lab procedures. We strive to provide the technical instruction and skill development to enable the students to become successful phlebotomists upon completion of the program. Our unique “hands on” learning experience allows our students to also obtain interpersonal skills essential for career success.

Schedule: Monday-Thursday 9:30 - 2:30 pm (Clinical times may vary depending on clinical demand.)
