ADMINISTRATIVE OFFICE TECHNOLOGY

The mission of the program is to provide technical instruction and skill development to enable students to enter employment for a career in the business field. Students receive up-to-date instruction, realistic work simulations, and experience on today's most widely used office equipment and software. Through this program, individual instruction is provided in accounting, office techniques, transcription, communications, computer operations, word processing, and spreadsheet applications. The program has been carefully structured so that each student may reach maximum skill levels regardless of prior office training or experience. The program also teaches the interpersonal and instructive skills required in an office setting. Training and instruction can be tailored to meet the needs of those who want to upgrade or update existing secretarial or clerical skills. Microsoft Office Specialist (MOS) Certification is an excellent addition to a student's portfolio and serves as an impressive credential when applying for future employment opportunities.

Employment Opportunities:

- Hospitals
- Doctor's Offices
- Call Centers

Program Instructor:

Brent Nelson
