PATIENT CARE TECHNOLOGY/MEDICAL ASSISTING

This program is designed to include classroom study and supervised clinical practice in health care facilities. The patient care technology student must complete the prescribed program of study and clinical experience and pass the state certification for CNA and national certification for Patient Care Technology and Medical Assistant. Broad units of study include Nurse Aide, Anatomy and Physiology, Medical Terminology, ECG Technician, Phlebotomy, Dosage Calculations, Computer Concepts and Medical Assisting. Job duties: perform administrative and certain clinical duties under the direction of a physician. Administrative duties may include scheduling appointments, maintaining medical records, and billing and coding information for insurance purposes. Clinical duties may include taking and recording vital signs and medical histories, preparing patients for examination, drawing blood, and administering medications as directed by physician. Applicants of this program should be aware that a mandatory criminal background and drug screening will be required. All applicants must take and pass the HESI exam with the minimum requirement to be considered for acceptance into the Patient Care Technology/Medical Assisting program.

Employment Opportunities:

- Hospitals
- Doctor's Offices
- Call Centers
