

***Are you having trouble passing the HESI?
These tips might help!***

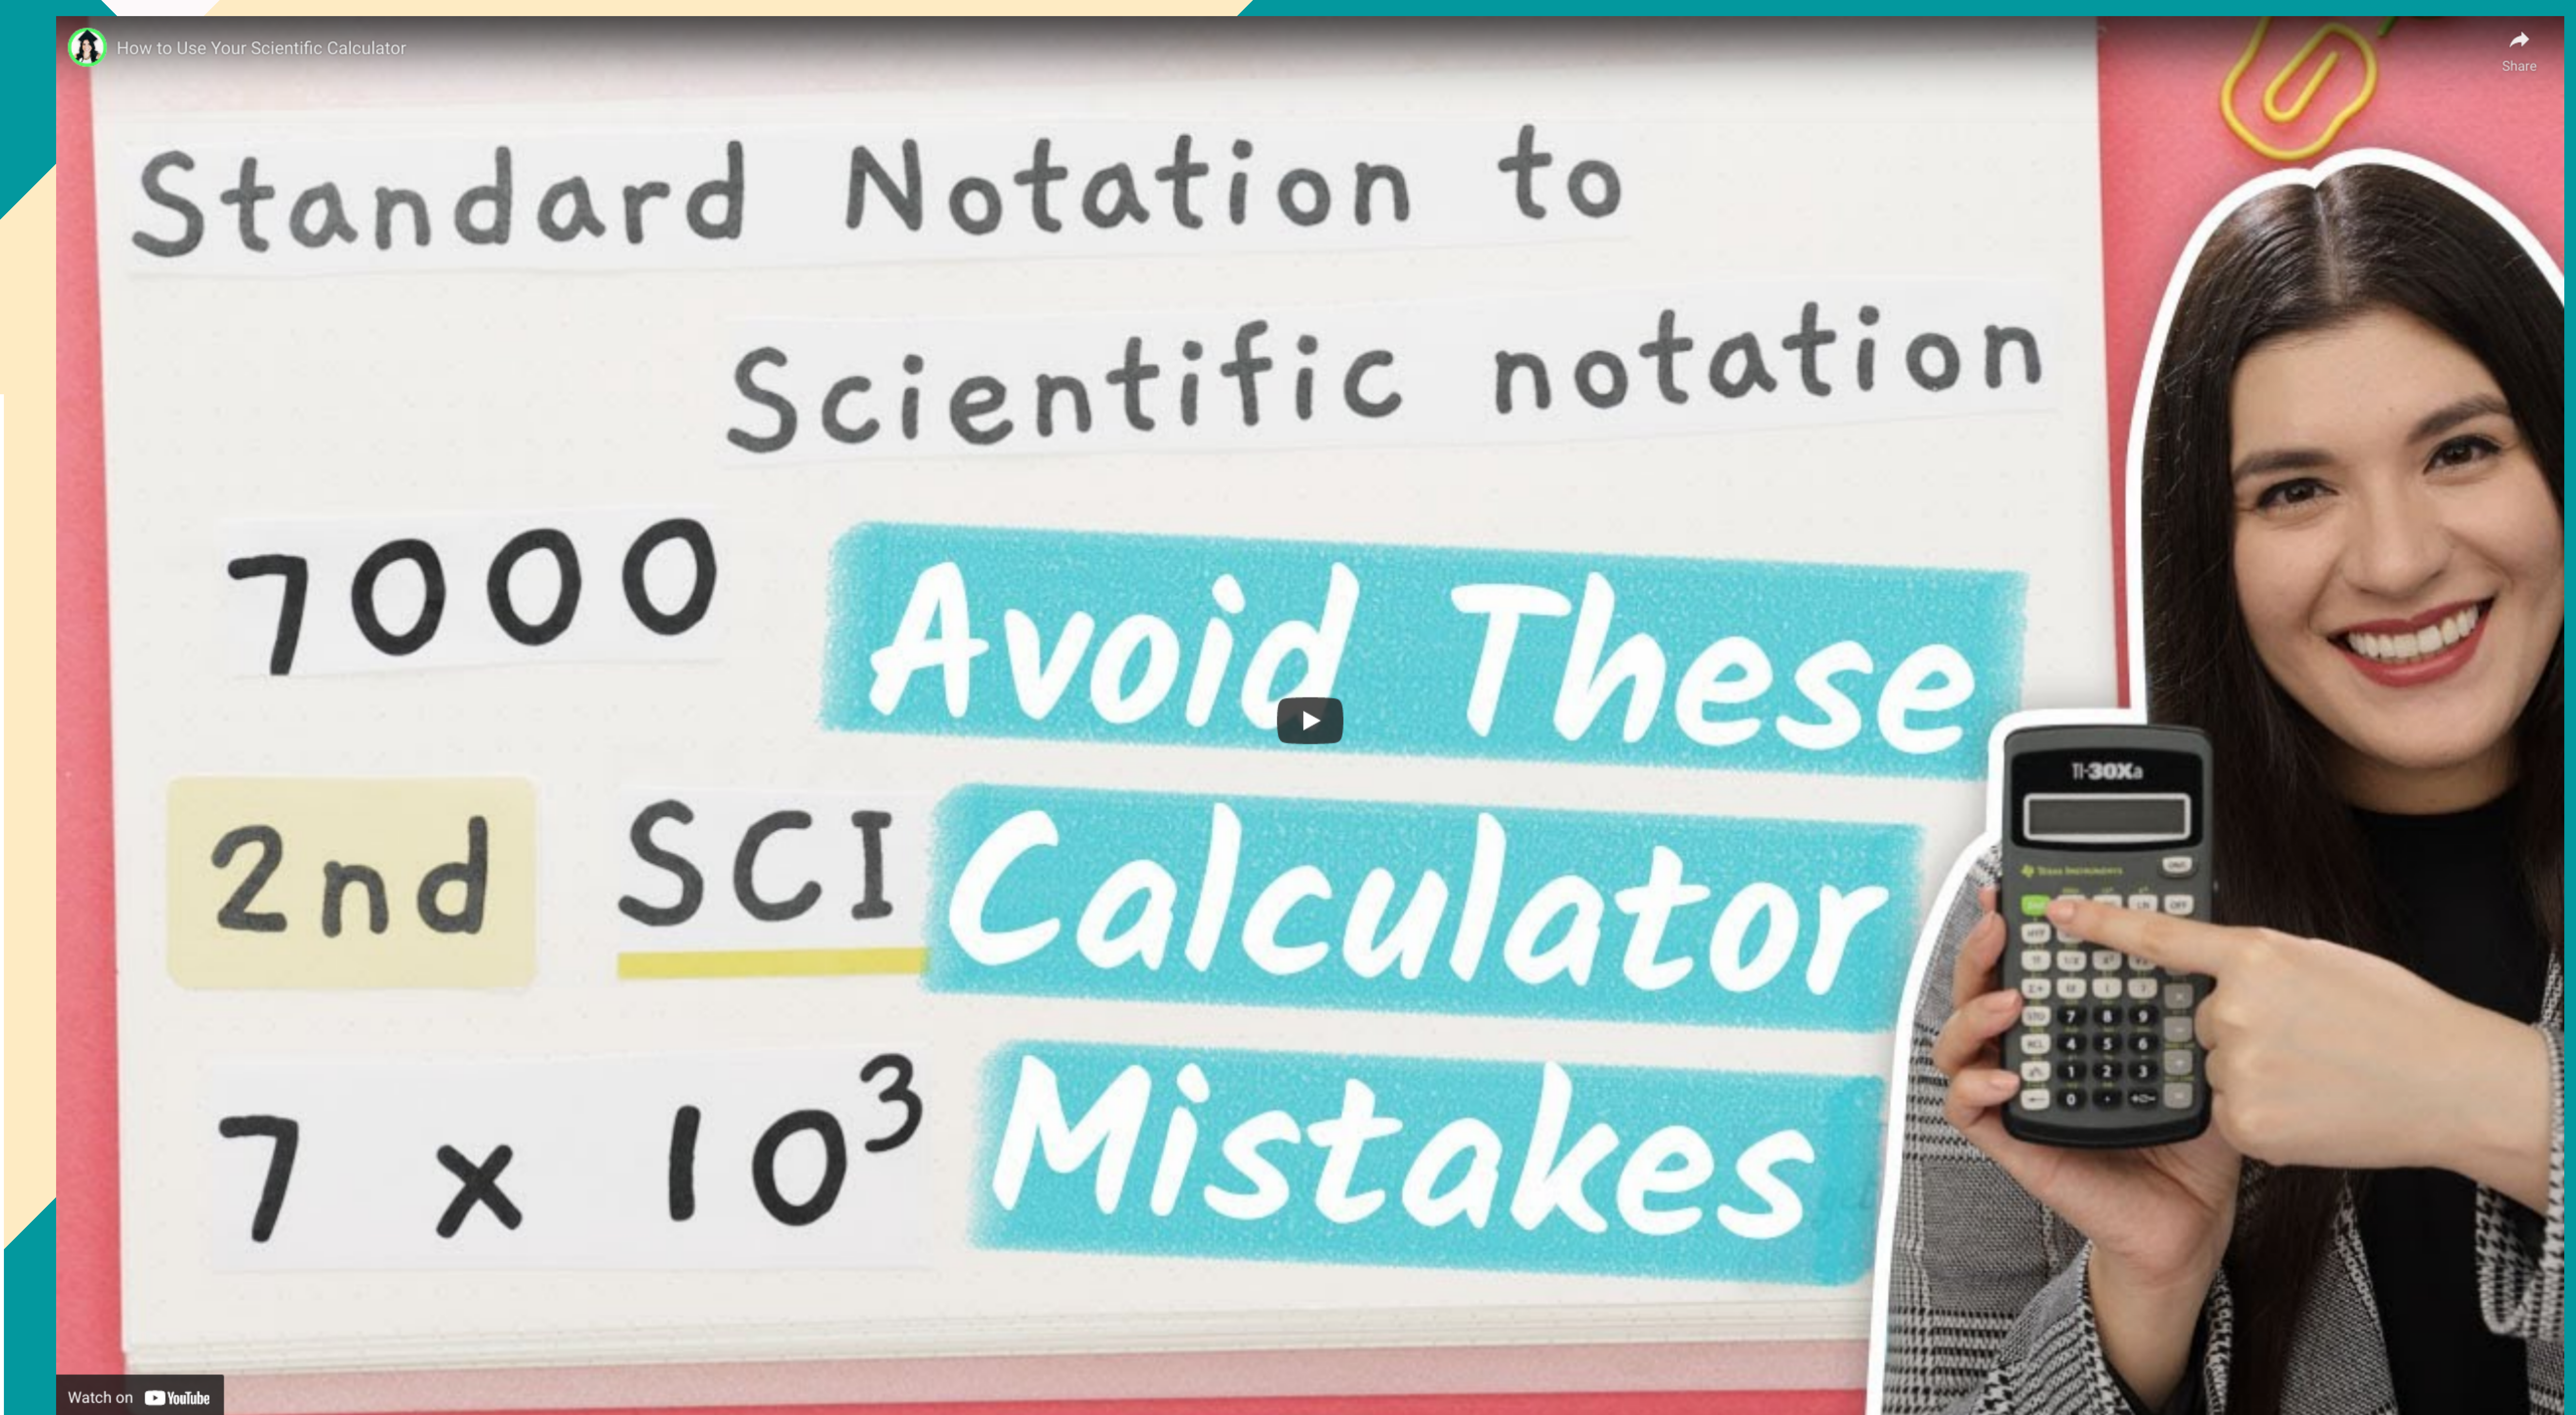

- **YOU ARE ABLE TO USE A SCIENTIFIC CALCULATOR FOR THE MATH PORTION OF THIS TEST!**
- **Get a scientific calculator.**
- **Do some practice questions.** Practice questions are on the internet, or we can provide some FREE review materials. **JUST ASK!**
- **Study household conversions.** This chart can help. You need to know how to convert Celsius into Fahrenheit, standard time into military time, pounds into kilograms, and other common household measurements such as how many teaspoons in a tablespoon.

YOU MAY FIND A MORE SPECIFIC TUTORIAL ON THE MODEL CALCULATOR YOU CHOOSE. JUST GOOGLE THE MODEL, SELECT 'VIDEOS', AND FIND THE ONE THAT HELPS YOU THE MOST.

WE ARE HERE TO HELP! After you have completed all of these tips & still feeling overwhelmed, contact Mrs. Molnar at (931) 424-2439 for personalized assistance in person or virtually.
